

Emmitsburg Osteopathic Primary Care Center is a non-stock, not-for-profit, tax exempt organization. EOPCC was brought into existence as a corporation on June 19, 1999. We first opened our doors on September 2, 1999, and are currently building a new state-of-the-art office with great anticipation of moving into the office during the month of November.

The purpose of the organization is to provide for the physical health and well-being of the local area, including but not limited to the research of medical issues affecting the community, the maximization of preventative health practices by means of education and training and the planning of medical-related events, especially preventative medical events directed towards the working poor.

We are asking for monetary donations and those items on our wish list to help our office be the best it can be!

## Our Wish List
